667 TALF the unhappiness in the world comes from thinking other people are happy." That epigram, which I read in Life the other day, appealed to me as one of the best things I have ever run across in that delightful candybox medicine chest of humor-coated truths. But I think it's converse, or is it "opposite?"-I'll have to leave that

That is, half the happiness in the world is caused by thinking other people are unhappy.

Perhaps you think that's a very wild statement.

to the geometry students, I guess-is even truer.

I don't, and maybe you won't when I tell you just how I mean it. Whether they admit it to themselves or not, I thoroughly believe that a very great part of many people's enjoyment of valuable opportunities and possessions is in thinking that not everybody can have them. In other words, a great deal of the pleasure they receive is founded

on other people's envy, which is certainly a very poignant kind of unhappiness Why else is it that a pretty model or an attractive style, which the rich madame is delighted with and regards as very beautiful as long as it is hers exclusively, is relegated to limbo as soon as it becomes suffi-

ciently inexpensive for a few other people to have it? What else is it that makes the possession of a diamond seem infinitely more desirable than the possession of its paste imitation, even in the eyes of those who could not probably tell the difference between the two? How few values are determined by beauty and utility, and not at all

by rarity-that is the possibility of general ownership. Did you ever see any laces half so beautiful as the dew-sparkling cobwebs that you find on the grass of an early morning, and that look as if the fairles had left them there when they fied from their revels at

Well, just suppose for a moment that these cobwebs could by some process be made indestructible and used on gowns. If that process did not cost much, and this beautiful lace were as free as air, how many rich ladies do you think would wear it? Why, none at all, of course. They'd all prefer their infinitely less beautiful Mechlin and old Duchess laces. just because these were out of reach of most people.

Myself, I confess with shame that when I first obtained a long-cherished desire, and rode horseback, a not inconsiderable part of my pleasure consisted in having the envious glances cast at me that I had so long cast at other people.

Isn't it all absurd? Can't we rise above it and learn to like and admire and strive for things just because we get pleasure out of them, and not because other people can't have them? RUTH CAMERON.

by Barbara Boyd

Oct. 27-VIENNA. Nov. 3-FAMOUS in church work and that the home was a comfortable inmate of the home. neglected.

LATEST FASHION.

LADIES' DRESSING SACQUE All Seams Allowed.

Every woman who values her comfort will be sure to have at least one dressing sacque in her wardrobe. For an abso lutely simple model there is none better than the one which we illustrate herewith. The back is seamless, with a little fullness gathered at the belt, and the front is made in the same manner, with-The homely elastic is used to attach the out darts, the belt holding the slight fullness in place. A peplum extends below the waist line. The sleeves are of like bandeaux that fit closely over the bishop design, finished with a cuff, while the neck has a rolling collar. Such a dressing sacque would be extremely pretty if made of printed crepe or of some of the many figured wash materials which may be bought everywhere. Lace or embroidery edging may be used to trim. The pattern (3519) is in sizes 32 to 44 inches, bust measure. 36-inch size requires 2% yards of 36-inch material. The above pattern can be obtained by sending 10 cents to the office of this

LIOUID CURES ECZEMA

AS THE DAYS PASS.

By FRANCES JAY.

Two teachers seated on the stone bench in front of the Public Library, in the soft air, forgetting the hardness of their resting place, had been thrashing out the pros and cons of the vaccination question until they felt as if it would be a pleasure to thrash something more substantial. One said, with the very evident desire to get back to safe ground, "I don't believe you know it was a wom an's courage and unselfishness that introduced the inoculation against disease to the English-speaking world, do you?" The other teacher did not "fess up" that it was all news to her, but, fencing, declared: "I have forgotten her nametell me about it."

"Well," said number 1, in the best classroom manner, "a very brilliant young English woman, maid of honor to the Queen, highly educated for the times, and even more famous for her letters, Lady Mary Wortley Montagu, daughter of the Duke of Kingston, was constantly mortified because her face was as bare of eyelashes and eyebrows as was the back of her hand. This had been caused by smallpox, the most common disease of the eighteenth century; but worse even than this personal disfigurement was the loss by the same plague of her young brother, just after his brilliant marriage. In spite of her staring. shadowless eyes, Lady Mary married well-her husband becoming ambassado to Constantinople, and her letters from that city, containing pithy and witty ac counts of the life and habits in Turkey. of letters she told of the inoculation parties, or smallpox parties, as she called them, when the groups of society people of the Turkish capital were inocu lated with pus from a diseased person and then remained in company, amusing each other with games and songs until a mild form of the disease occurred, which abated in about twenty-four hours, and then, departed forever, those so treated being immune thereafter. Not only did Lady Montagu give much writing to the subject, but she had her son "ingrafted -the only son, and therefor a very im ortant infant. Réturning to England she so interested the country at large that inoculation was taken up by the doctors after Lady Mary's daughter was successfully treated-it was hard to convince the people at large, and the pulpit and press still cried against the unnatural convinced. The persecution almost defamily was forced to do so, the weight on her heart being too much for her mind. But though she was doubtless a lived, and everything science knows of inoculation dates from her effort,

Teacher number 2 drank it all in with wide-eyed interest, but was rather pleased when the lecture was ended, for seems hardly right to many a consecuency was a constant to give up her church entirely.

If she finds that her husband takes her attendance at church or committee meetings as an excuse for his seeking that Voltaire wrote in favor of inocular that the voltaire wrote in favor of incounters. up, for the good of his nation. Insinuation is the subtle weapon of the oward. When we look upon the cobwebby material used in dressing to-day we be-

lieve that even Phryne would be tempted to imitate them. The women who haven't "hubbles" isually have hobbies.

Love can do more for a woman than all the beauty specialists in the world.

DAINTY DESSERTS.

From the Red Book. One of the most delicious salads is made of diced pineapple and raspberries tossed together with mayonnaise and served on white lettuce leaves.

A delicious peach sherbet is made by scalding a quart of milk, dissolving in it alf a pound of sugar, and when it is cold adding a pint of peaches rubbed through sleve and sweetened to taste. When the sherbet is half frozen stir in the stiffly beaten white of an egg or a tablespoonful of gelatin dissolved in water. Like all ces, it improves if two or three hours are allowed for ripening after the freezing.

Peach snow is made exactly like apple snow, and is more delicious to most persons. Crush two large ripe peaches and rub the pulp through a colander. Whip the white of an egg stiff with a trace of salt and add gradually three tablespoonfuls of powdered sugar and the peach pulp, adding a little of one and then the other. When both are used continue the beating until the "snow" is a mound of foam. It will increase in volume sur-

Green gages and bananas cut up together and dressed with a little sugar and mayonnaise are delicious as a salad. A little whipped cream mixed with mayonnaise improves all fruit salads.
